2. **Zihao Wang**, “AI research for rehabilitative robotics,” Undergraduate Research Opportunity Project (UROP) Thesis, Computer Engineering, National University of Singapore, Singapore, 2022. [[Paper](#)].

PROFESSIONAL EXPERIENCES

National Centre for Infectious Diseases

May 2025 - May 2026

Research Staff (Part-time), Tan Tock Seng Hospital, Singapore

Advisors: Assoc. Prof. Kelvin Bryan Tan, Asst. Prof. Jue Tao Lim

- Estimation of infection fatality ratio (IFR) during pandemics, population-based retrospective cohort studies, respiratory syncytial virus (RSV), dengue

Department of Chemical & Biomolecular Engineering

July 2023 - January 2025

Research Engineer (Full-time), National University of Singapore, Singapore

Advisor: Asst. Prof. Zhe Wu

- Input convex neural networks, model predictive control, chemical process modeling, meta-learning, physics-informed learning

Department of Biomedical Engineering

March 2023 - July 2023

Undergraduate Research Assistant (Internship), National University of Singapore, Singapore

Advisor: Asst. Prof. Yueming Jin

- Computer vision, gastrectomy surgical video analysis, modality-cataract video segmentation

Rolls-Royce@NTU Corporate Laboratory

May 2022 - August 2022

Research Engineer (Internship), Nanyang Technological University, Singapore

Advisors: Dr. Aditya Venkataraman, Dr. Benjamin Cheong

- Software engineering, hybrid-electric power and propulsion design tools, marine and aero engines

School of Computing

March 2022 - May 2022

Undergraduate Research Assistant (Internship), National University of Singapore, Singapore

Advisor: Prof. Shengdong Zhao

- Human-computer interaction

SKILLS

Computer: C, C++, Java, Python, R, Assembly Language, MATLAB, PostgreSQL, Verilog, Vensim, Gephi, LaTeX

Languages: Mandarin (native), English (bilingual), Cantonese (proficient), Korean (conversational)
